WIVES' DECALOGUE FROM THE MOUTH OF JOHN D'S PASTOR

Rev. W. W. Bustard, Rockefel-
ler's pastor of the Euclid Avenue
Baptist church Sunday gave ten
"don'ts" for wives.
Here are a few:
"Don't marry a man for a living,
but for love."
"Don't overdress and underdress."
"Don't tell your troubles to your
neighbors. They have enough of
their own. Fight it out with your
husband if it takes all summer."
"Don't nag. The saloonkeeper is
always glad to welcome your hus-
band with a smile."
"Don't try to get more out of
a looking glass than you put into
it."
"Don't make gamblers and drunk-
ards out of your children by run-
ning whist parties for prizes and
serving punch with a stick in it."
"Don't forget to tell the truth,
especially to the conductor, about
the age of your child. Honesty is
worth more to you and him than a
nickel."

UNABLE TO SUPPLY DEMAND FOR ARTIFICIAL SILK

Production Remains Far Below That of Real Silk.

WASHINGTON, D. C., June 5.—
French manufacturers of artificial
silk, notwithstanding great increases
in production, are unable to supply
the demand, according to the Unit-
ed States Consular Service. The
production of the artificial silk re-
mains far below that of the real
silk. In 1909 there were 79,547,-
900 pounds of real silk turned out
by the world's producing centers,
but the spinning factories where ar-
tificial silk is made, were unable to
deliver more than 2,376,000 pounds.

The artificial product is made out
of cotton, no chemical process be-
ing used in manufacture. The cot-
ton raw material only undergoes a

mechanical change and an addition-
al process is used to make it bril-
liant and incombustible. The only
difference between artificial silk and
cotton fabrics lies in the weaving
process.

The artificial silk processes are
in general use, the Chardonnet, the
viscose and the one called vegetable
casein. The viscose is the cheapest
one. The delicacy of the work is
seen in the fineness of the texture.
The threads are spun at one-eigh-
teenth of a hair's diameter. This
almost imperceptible filament is
very strong and solid. Its base is
spun glass and it can be twisted,
braided or woven with extraordi-
nary facility.

Molybdenum Found In the Sweetwater Valley

A valuable ore deposit has been
discovered this week, up Sweetwater
way, on the Yparaguerre ranch, on
a claim owned by Andy Erickson
and John A. Snyder of this city.

Mr. Erickson has kept up his as-
sessment work on this claim, with
others up that way, for some time,
and has been firm in the belief that
there was excellent value in the
ore he uncovered there from time
to time, notwithstanding the fact
that specimens sent to many differ-
ent assay offices met only with dis-
couraging reports. He kept doggedly
at work. Like the persistent,
good-natured Sweede he is, and
finally he has met with deserved
reward. On his last trip up to
Sweetwater, he uncovered, at a
depth of about seven or eight feet,
a vein of ore eight to ten feet
thick, and this sent to a San Fran-
cisco assay office interested a gov-
ernment official to whom it was
shown, and Andy Erickson had at
last "struck it."

The ore is "molybdenum," a very
rare metal, but said to be in de-
posits all over the State of Ne-
vada.

This particular find is said to be
very rich and valuable and the own-
ers are of course jubilant.

Molybdenum is a very valuable
ore, and when concentrated is re-
duced to a powder-like consistency,
and used in tempering steel, and
also as a non-conductor of heat is
very valuable to the government,
being used for lining the inside of
the rapid-fire guns, preventing the
barrels from becoming over heated.

Samples of the ore are here in
the city, and those competent to
judge say the specimens show a
very pure strain of molybdenum.

John A. Snyder, who is associ-
ated with Erickson in the ownership
of this claim, went up to Sweetwa-
ter on Wednesday, and is still on
the ground, having expressed him-

self as feeling like he had just
discovered "Easy" street just before
he left, and as Erickson is also
there, it is impossible to get inter-
views of merit relative to the strike
or the incidents leading up to its
discovery.

However, enough is known to be
sure that a rich molybdenum de-
posit has been unearthed, the depth
or length of the vein being yet an
unknown quantity.—Mason Valley

CABLE FLASHES

BERLIN, June 5.—German offi-
cials accorded the Commission of
the International Panama-Pacific
Exposition of San Francisco, head-
ed by John Hays Hammond and
General Clarence E. Edwards, a
rather "cool" reception as compared
with that they received in London,
where they were wined and dined
by the highest English officials, in-
cluding Sir Edward Grey, the for-
eign minister. The commission also
was received by King George. In
Berlin the highest official to which
Ambassador Leishman could steer
them was Assistant Foreign Secre-
tary Zimmerman. At the two lunch-
eons and dinners given the commis-
sion, the guests with one or two
exceptions, were comparatively min-
or officials.

There was apparently no intent
to slight the commission, but as one
official expressed it "Germany is
tired of expositions. They come too
often. To exhibit no longer pays,
even as an advertisement." It will
take considerable missionary work
to create enthusiasm on the part of
the Germans in the coming ex-
position, although no country is taking
a keener interest in the opening of
the Panama canal.

BUCHAREST, June 5.—The Rou-
manian war minister has nearly
provoked a mutiny in several regi-
ments by loaning them to a cine-
matograph company which wanted
to dress them in Turkish uniforms.
In order to obtain pictures of the
Roumanian campaign against the
Turks in 1877, for local celebrations
the cinema people persuaded the
war minister to order maneuvers in
which the 1877 battles were to be
reproduced, but the regiments told
off to impersonate the "enemy" and
charge their comrades, flatly re-
fused to don the hated Turkish uni-
forms. To avoid bloodshed the war
minister was compelled to rescind
the order and the cinema company
is now looking for civilian "Turks."

BERNE, June 5.—The raids
made by American and British tour-
ists on the edelweiss and other
characteristic Swiss flowers, have
caused the federal authorities to
legislate against their absolute ex-
termination. Under this law, now
before the Swiss parliament, it is
prohibited to buy, sell, dig or pull
up edelweiss, the fire lily, the Si-
berian spring crocus, blue Alpine
columbine, daphne, Alpine violet
and other national flowers which
have suffered so much at the hands
of tourists.
